NOTES AND ORDERS.

1) Submitted.

The Superintendent thinks that
1000 Srs of sealing wax is being purchased
at 5 annas a Sr. It is only the Mysore D.C.
that has reported the price. It is therefore

Sub D:- Replies from all the Districts have been received. On examining the statements, it is seen that all the Taluk Treasuries ~~have~~ are being supplied with country sealing wax from the Govt. Stationery Depot in accordance to the demand of each taluk and they are not making any local purchases. The District Treasuries only (altogether) are making purchase of sealing wax locally & the total quantity purchased in each dist. Treasury and the rate at which it is purchased is given in the following statements:-

District Treasury	Quantity consumed.	Rate at which it is purchased.
Mysore —	200 seers	Rs 0-5-0 per seer
Kolar —	36 "	Between Rs 1-4-0 + Rs 1-4-0 a seer.
Hassan	84 "	Rs 0-6-0 a seer.
Dundar —	160 "	Rs 0-4-5 a seer.
Shimoga —	120 "	Rs 0-6-0 "
Chitaldrug	54 "	Rs 0-14-0 "
Kadur —	24 "	Between 10 + 11 annas "

The quantity of sealing wax consumed in the Kadur district Treasury is not separately given in the reply received, and the statement mentioned therein is not forwarded.

Serial

16) Assuming that the Qty of sealing wax consumed in the Radur District Treasury to be the same as that consumed in the Chitaldrug District Treasury, i.e. 54 lbs., the total Qty consumed in all Dist. Treasuries comes to 708 lbs., & the total cost works up to Rs 306-3-0. If the same Qty is ^{to be} supplied to the District Treasuries by the Stationary Depot, which purchases the wax at two annas per lb., the total cost comes to Rs 88-8-0 only. This means a saving of Rs 217-11-2 per annum.

i) Hence, the Deputy's proposal seems to be a reasonable one and may be approved.

To

P. G. D'Souza, Esq., B. A., B. L.,

Chief Secretary to the Government of

His Highness the Maharaja of Mysore,

Bangalore.

Sir,

I have the honor to state that four to five sticks of superior English Sealing wax are being supplied to all offices yearly for the use of the officer, and whereas country sealing wax is as per orders of Government being purchased and supplied to the several Taluks of the State for sealing Treasuries daily. The Deputy Commissioner, Treasury Department, Mysore, in his No. 242 of 7th instant, copy - submitted herewith, says that the Comptroller has objected to the - purchase of country sealing wax from his office contingencies, and requests me to intimate whether I can undertake to supply 200 seers of country sealing wax required for one year, which he has been - purchasing at Re. 0-5-0 a seer. As the price paid by the District Treasury is very high compared with the price of two annas per seer at which it is being purchased by the Stationery Depot, I beg to propose that the supplies required by the District Treasuries may also be stocked in the Depot in addition to the supplies now being made to the Taluks. At present, 1,500 seers of the country sealing wax are being purchased every year for the use of the Taluks. I propose that 1,600 seers more of the sealing wax may also be ordered to be purchased in addition, and supplied to all District Treasuries at 200 seers for each District. This will effect an appreciable

savings of Rs. 300/- per annum. If the proposal meets with the approval of Government, sanction may be kindly accorded to the purchase of the additional quantity of country sealing wax ^{for the current year 1925-26} and the stocking of the same in the Depot, the cost being debited to the Stationery budget, and a proportionate reduction ordered to be made from the contingent grant of the several District Treasuries.

I have the honor to be,

Copy of letter No. C. 242/25-26 of the 7th September 1925 received from the Deputy Commissioner, Treasury Department, Mysore to the Superintendent of Stationery, Mysore.

With reference to your letter No. 288 dated 13-8-1925 forwarding sample of sealing wax, I have the honor to state that the samples were tested and compared with the former supply and found to ~~bear~~ ^{leave} a brighter and cleaner impression although the sealing wax of old supply appears to be a little more elastic.

2. In this connection I may bring to your notice that the Comptroller in Mysore has in his audit objection slip No. 544/ T.A.L.C. dated 12-8-1925 taken objection to an item of expenditure for Rs. 2-8-0 in respect of the local purchase of eight seers of sealing wax made on 20th May 1925 on the ground that it is an article supplied by the Stationery Department.

Sealing wax is an item of frequent purchase for use in the Treasury here, as it is required in large quantities to seal Treasury doors daily, remittance boxes, stamp parcels, covers containing safe custody papers, security bonds, &c.,. In a year a quantity of nearly 200 seers of wax is required for the above purpose, and the Stationery Department supplies only four to five sticks of wax every year to the Treasury Department, which is quite inadequate to meet even a week's requirements or even a day's when heavy remittances, &c., have to be despatched.

In these circumstances I request to be kindly informed if you can undertake to supply the quantity of sealing wax required for a year, for use in the District Treasury, so that the long standing practice of local purchase of this item may be discontinued. I have written to the Comptroller that pending the settlement of this matter such charges may be admitted.

I may add that the cost of the wax purchased here is about 0-5-0 a seer generally.

the officers in charge of the Treasuries at Taluk Head Quarters,
it is seen that the quantity of country sealing wax supplied by
the Stationery Superintendent annually to their respective Trea-
suries will be just normally sufficient for every day use through-
out the year, but when this supply is exhausted, which happens --
rately, sealing wax is purchased locally at rates varying from 4
to 6 annas.

2. The District Treasury Officer, Hassan District however re-
ports that the Stationery Superintendent supplies his office only

10 sticks of sealing wax annually (as indicated by the statistics for the past three years). As this small quantity of sealing -- wax does not suffice even for a couple of days as found by the -- average consumption for the past three years, 84 seers of country sealing wax is being purchased locally per year at 6 annas per -- seer for the use of the Treasury.

3. In this connection, it may be stated that the quantity of -- sealing wax required in connection with the remittance of Treasure is purchased separately in all Treasuries, the cost thereof being debited towards remittance charges.

I have the honour to be,

Sir,

Your most obedient servant,

Sir,

With reference to your letter No.H.C.123/25-26 dated 6-11-25 in the matter of the consumption of the country sealing wax in the Treasuries of this District, I have the honour to forward herewith a copy of the letter No.D.2.Dis.26/25-26 dated 4-12-25 from the District Treasury Officer, Shimoga. It is learnt therefrom that, on an average, 10 seers of sealing wax are required in the District Treasury every month, exclusive of the quantity that now and then may be necessary for remittance purposes. It is reported that since the Government Stationery Depot is supplying the Taluk Treasuries with enough sealing wax for their every day use, no extra quantity is needed by them, except one or two seers that might be required while remittances are sent.

With reference to your memo NO. H.C. 123 of 25-26 dated the 17th October 1925 calling for information as to the quantity of country sealing Wax consumed in the Treasuries in the District, I have the honour to state that, on an average, 10 seers of sealing wax at 0-6-0 a seer is being purchased every month for the use of the District Treasury for sealing the four locks and stamp parcels etc., except for remittance purposes. All the Taluk Treasury Officers of the District report that sealing wax is being supplied to them from the Superintendent of Stationery every year, that the quantity supplied would be enough for the Treasury purposes and that they are not purchasing the sealing wax ~~immediately~~ locally, except when remittances are to be despatched when one or two seers would be purchased locally at the rates noted in the margin. It is also ascertained that annual supply to taluks of this District ranges from 15 to 25 seers, according to the demand of each Taluk.

Sir,

Adverting to Government Order No. 5907-16/P. & S. 4-25-96 of the 16th February 1926 ordering that country sealing wax may be stocked at the Stationery Depot for supply to all District Treasuries and requesting that a report may be furnished as to whether the supply of sealing wax and certain other articles ordered to Taluk offices from the Depot for the year 1923 ~~was~~ now in force. I have the honour to state that Government in their No. G. 25009-19/P. & S. 28-20-67 of the 27th June 1921 ordered the supply of Stationery ^{to Taluks} for 1921-22 tentatively and directed the submission of a report to Government in January 1922 by this office as well as by the Revenue Commissioner in Mysore, on the working of the proposals, to enable Government to pass orders as regards the adoption of that course in future years. Accordingly, a report was submitted to Government in my letter No. 2086 of the 17th January 1922 requesting Government to sanction the supply of all articles to Taluks as a permanent measure. As no reply was received from Government on the subject, a reminder was also submitted with this office No. 2086 of 24th April 1922, enquiring whether Stationery articles were also to be supplied to Taluks for 1922-23 as the Government Order of 27th June 1921, authorised the supply tentatively for the official year 1921-22 only.

After some correspondence, Government in their No. E. 3210/P. & S. 33-22-7 of the 10th November 1922, requested me to submit a reappropriation statement for meeting the extra charge of Rs. 9/- per

But no Government Order has issued making the arrangement permanent. It may be now be kindly issued to put the matter on a definite basis.
